MARSEILLE

Passionate about web design and development, I made a career change to combine creativity and technical expertise. Specializing in front-end development and web design, I have a user-centric approach and attention to detail that allows me to design powerful and intuitive interfaces. Curious and autonomous, I am always on the lookout to deepen my skills and test new technologies.

PROFESSIONAL EXPERIENCES

07.2024 - 09.2024 - **OMIAGE** - Internship - Remote
- UX/UI redesign of an existing showcase website.

Description : User needs analysis, mockup creation, prototyping, and interface improvement for a better user experience. Website code rework from scratch using modern technologies.
